

We bring your catalog to life

Enhancing Library Catalogs Since 1998

Syndetic Solutions has been identifying and meeting the needs of libraries seeking to improve, enhance, and beautify their OPACs throughout the evolution of Library Information System technology. Working with large and small ILS vendors, we have developed an easy-to-implement, affordable solution that seamlessly works with your library's current system. Users will never know that your new, enhanced content is being drawn from our servers!

With Bowker's acquisition of Syndetic Solutions in 2004, we are now able to leverage the most authoritative and comprehensive database of bibliographic information to the advantage of your library's catalog.

Now better than ever, Syndetic Solutions is your best source for the content your patrons have come to expect. We are committed to seeing libraries thrive in this information age—let Syndetics Solutions empower your OPAC and inspire your patrons to turn to the library for all of their information needs.

Seamless integration means no maintenance for the library.

Syndetics Catalog Enrichment Services

With dynamic updates to your catalog, as librarians and patrons browse titles and information, no one will be aware of the seamless integration of our rich content with your titles. You can be confident that your new “look” and increased information will make your library shine, and increase useability and efficiency for you and your patrons.

Libraries are invited to select any combination of the following elements in either HTML or XML format:

■ COVER IMAGES

Over 1,400,000 book cover images and 35,000 video & DVD covers are available, each in a variety of sizes to fit each library's OPAC needs.

■ FICTION AND BIOGRAPHY PROFILES

Syndetics provides profiles for over 92,000 works of fiction and biographies using a broad range of attributes:

- Genre and Sub-genre
- Time Periods
- Topics within the Plot
- Awards
- Main Characters
- Author Notes
- Character Attributes
- Plot Summaries
- Settings
- Special Notes

■ FIRST CHAPTERS & EXCERPTS

Over 60,000 First Chapters and Excerpts are available through a special arrangement with Dial-A-Book, Inc. New titles are added each month.

■ BOOK REVIEWS

Over 540,000 book reviews are available from various sources, including Library Journal¹, School Library Journal¹, Publishers Weekly¹, Criticas¹, Booklist², Choice², and The Horn Book³.

■ TABLES OF CONTENTS

Available in a number of formats, more than 600,000 tables of contents provide a wealth of keyword access points. Syndetics covers over 80,000 new publications each year from small press, trade, and scholarly publishers, including a growing number of Spanish-language titles. Updated each week.

■ ANNOTATIONS

Syndetics has over 1,800,000 summaries and annotations for fiction and non-fiction, covering both trade and scholarly titles.

■ AUTHOR NOTES

Biographical notes about a book's author are taken directly from the book jacket. There are over 100,000 author notes available for titles covered by Syndetics' tables of contents service and recently published fiction.

■ COMPATIBLE WITH YOUR ILS SYSTEM

Seamless integration with the following library systems: Auto-Graphics, Axiel, Brodart, Civica, Companion, Dynix, Endeavor, ExLibris, Follett, GIS, GEAC, Innovative Interfaces, MuseGlobal, Mandarin, Sirsi, Surpass, TLC, VTLS. *Let us know if your ILS system is not listed here!*

NEW for 2005!

- **SEARCHABLE FICTION PROFILES** Enables you to identify titles with similar attributes—such as titles whose character attributes or plot topics are similar. Example: fiction titles featuring twins as main characters.
- **AWARDS** Nominees and winners from 400 Awards—courtesy of Bowker's Books In Print® database.
- **BOOKS IN A SERIES** Search more than 4,100 series in both juvenile and adult fiction. Arranged in reading order. Updated weekly.
