

**STEP 2** Identify and edit any errors in your uploaded list. You may correct your records and add them back to the list. Corrected records will then appear in your reports and can be downloaded for ongoing catalog maintenance.

**ERROR ALERT WHILE LOADING**

You will also see a message on this page if any of the items in your upload file could not be loaded into the system. These may include invalid, duplicate, or other problem ISSNs. Click on the link to download a tab-delimited list of the problem ISSNs. You may correct or edit those items and then upload them successfully into your library's list.

**EDITING YOUR LIBRARY'S LIST**

After you have loaded your list you may click on this link at the top of any page to view and edit or update your list as often as is needed.

Select "view the titles on this list" to edit or delete specific ISSNs. You may also add updated titles to the list by selecting "upload titles" on this screen.

You will come to an editable list like the one at right. You may resort the list to have non-matching ISSNs come to the top for editing or deleting.

See page 14 for more information on error reports and why you may need to edit your list.
